

JAN' 2017

Oulton Airfield Solar Farm

£10,000 Available for Community Projects

Solarcentury is in business for a purpose: to build solar farms that make a meaningful difference in the fight against climate change. For full details about Solarcentury please visit their website at www.solarcentury.com

Solarcentury recognise that the construction phase of a solar farm can be disruptive and it also recognises that there isn't automatically a direct benefit to neighbours of the solar farm.

Solarcentury want the local community to share the benefits and wants to be a 'good neighbour'. They have therefore established the Solarcentury Community Fund.

Now that the construction of the Oulton Airfield Solar Farm is complete, voluntary and community organisations with projects in the **Parish of Oulton** and neighbouring **Parish in Cawston** can apply for grants of between **£250 and £5,000**.

To apply, groups need to complete a simple online application form by **Wednesday 26 April 2017**. This is a one-off opportunity, so please make sure you complete your application by this date.

If you have an idea about how this money could be used to improve your community, but perhaps you are not part of a local group, you are encouraged to speak to the Parish Council. They are fully aware of the Fund and may be able to submit an application on your behalf.

The Fund is being administered by national grant-making charity GrantScape. Full details about the Fund and how to apply, can be found at:

<http://www.grantscape.org.uk/fund/solarcenturycf/>

Alternatively, if you would like to tell us more about a project you have in mind, please speak to a member of the GrantScape team on:

Telephone: 01908 247630
